What we do?

Ensure your project runs smoothly

Helpful advice right from concept feasibility and preplanning stage to highlight and resolve design issues at the earliest possible opportunity.

Flexible Approach

Our friendly inspection service offers a professional and responsive third-party check throughout the construction process so that you receive the best impartial advice.

Inspections

As we are locally based we provide same day site inspections quickly allowing us to adapt to change whilst saving you time and money.

What we offer?

Start on site straight away

Start on site as soon as you make a submission so there is no delay waiting for an Approval.

No hidden costs

Our keenly competitive price is fully inclusive and we offer one hours FREE pre-application advice to ensure that there are no hidden costs when an application is made.

Free and helpful advice

Helpful advice by professional staff before submission to help identify and resolve design issues before they become a problem on site.

Who are we?

Independent and accountable

We will always be here and answerable for what we do. This provides you with reassurance that we will get it right first time.

Experienced Surveyors with local knowledge

We have a wealth of technical knowledge and local experience from a locally based team for you to benefit from throughout the project programme.

We work with you

We help you to find common sense solutions which offer the least cost and complexity whilst offering flexibility and simplicity.

Remember - There are never problems, only challenges and we aim to help you meet them
