

Please complete an evaluation with the child/young person for the first review meeting following transition.

How the transition went for the child/young person is important. However, there are so many variables as to how this should be done according to age, ability, words used/what they mean to child/young person etc. that it would be better for a known person to obtain feedback for the first review meeting. The following therefore is just for guidance. An adult may ask the questions and complete an evaluation, or the young person may choose to do so.

I go to a new pre-school / nursery /school / college

What did you want to know about your new before going there –

How did you get answers to your questions –

Taking photos of

Visiting

Talking to someone

Other

Did it help having the answers to your questions before you went to your new
How did it help you?

Are you worried about being at your new now?
What are your worries?
