KEY TO HOW PLACES WERE ALLOCATED IN COMMUNITY AND VOLUNTARY CONTROLLED SCHOOLS

The following oversubscription criteria, in order of priority, were applied when a community or voluntary controlled school received more preferences than places available:

- A 'Looked after' children or children who were 'looked after', but ceased to be so because they were adopted or became subject to a residence order or special guardianship order (previous 'looked-after' children)
- B Families who have exceptional medical or social needs as the grounds for their admission to a particular school
- C Children whose permanent home address is **inside** the schools' designated area and who has a sibling at the school at the time of application; who is expected to be attending the school when the child will enter the school.
- D Children whose permanent home address is in the school's designated area
- E Children whose permanent home address is **outside** the schools' designated area and who has a sibling at the school at the time of application; who is expected to be attending the school when the child will enter the school.
- F Any other children

For both community and voluntary controlled schools - all children with statements of special educational needs or an Education, Health and Care Plan that named a school in the statement or plan were admitted to the school that was named

If the school does not have sufficient places for children in any category, places will then be allocated on the basis of the radial distance using the local authority's computerised mapping system and the distance will be measured as a straight line between the Land and Property Gazetteer address points for the respective home address and school.

The Parent's Guide provides further information relating to each of the above oversubscription criteria
