Roadworks progressing to Culver Lane.

Dear Resident

Works moving onto Culver Lane for new active travel route and full resurfacing works – disruption likely

The Woodley to Reading Active Travel Route is continuing to progress and we are now preparing to move onto the next phase of works along Culver Lane between Wykenham Road and Palmerstone Road from the 21st of September 2026.

As part of this phase, we will also be working in collaboration with Wokingham Borough Council's Asset Management Team to resurface the carriageway as part of the Council's annual structural maintenance programme. By coordinating these activities together, we aim to minimise future disruption and deliver improvements to both the active travel infrastructure and the condition of the road.

Woodley to Reading Active Travel Route – expected Culver Lane works programme

- **21 September to 3 October 2026**
  Culver Lane at the junction with Wykenham Road (road closure)
- **3 October to 16 November 2026**
  Culver Lane between Wykenham Road and Palmerstone Road (road closure)

We will be using temporary road closures and signed diversion routes, to keep everyone safe and to allow the works to progress efficiently. Vehicle access to properties may be restricted or delayed at times during construction. Pedestrian access will generally be maintained, although there may be occasions where short restrictions are necessary for safety reasons. Any questions please contact one of our onsite personnel and we will try our best to accommodate.

We have advance warning signs on site and we'll be sharing further details, including maps and up to date schedules, on the project webpage. For the latest information, as well as the history and purpose of this project, visit wokingham.gov.uk and search 'Woodley to Reading active travel route' or visit one.network.

We sincerely apologise for any inconvenience these works may cause and greatly appreciate your patience and understanding throughout this period of improvement. If you have any questions or specific access requirements, please contact our project team at www.wokingham.gov.uk/hge
